

Hazard Community and Technical College  
Sustainability Committee, 2014-2015  
 Institutional Effectiveness Annual Report  
 Committee Reports to: President

Committee's Charge: This committee is being implemented to celebrate successes and address social, economic, and environmental imbalances to achieve efficiencies and manage resources without negatively impacting future generations' ability to meet their own needs. Initiatives involve: 1) Becoming cognizant of the economic, social, and environmental tradeoffs that exist in budget, academic, and programming decisions. 2) Training faculty, staff, and students to live and work in a global "green" economy. 3) Taking into account the various criteria and capital that accompany each part of sustainability, that is, economic, environmental, and social justice considerations. 4) Creating a robust, efficient economy and advancing society without negatively impacting resources using a balanced approach. 5) Using *life cycle costing* instead of what is the best deal at this point in time. And 6) Being proactive instead of reactive.

Names of Members	10-24-2014	Total
Ron Holmes*	X	1
Donna Roark	X	1
