**EMPLOYEE SATISFACTION WITH AD HOC DATA/SURVEY REQUESTS SURVEY**  
**RESULTS SUMMARY – SPRING 2012**

HCTC employees who submitted either an ad hoc data request or survey request from January-June 2012 were asked to complete a 9-question satisfaction survey. A copy of the survey instrument is attached to this report. Five questions asked for a level of agreement, one question was demographic, two questions related to the type of request, and a final open-ended question asked for comments.

According to the data request/survey request logs, the Coordinator of Institutional Research completed a total of 122 data requests and 54 survey requests (27 surveys—54 includes both the survey setup and the results report) from January-June 30, 2012. The survey link was sent via email at the end of January-June only to those employees who requested data or survey assistance during each particular month. A total of 53 responses were collected for the survey during the time period – 41 related to data requests and 19 related to survey requests compared to 21 responses received in Fall 2011, 53 responses received in Spring 2011, 15 responses received in Fall 2010, and 15 responses received in Spring 2010.

Please see the attached Survey Results report for the specific totals and percentages. An attached Excel file contains the raw data which includes feedback for the open-ended question. Please see the following summary table. A summary statement concludes this report. The final page of this document provides the codebook for the raw data.

**SUMMARY STATEMENT**

Overall, 100% of respondents are satisfied with the services provided by the Office of Institutional Research.
