**Explanation of the Data:** Data for this table is based on the QEP cohort of first-time credential-seeking students which HCTC began tracking in Fall 2006. The Fall 2006 and Spring 2007 terms should be used as baseline terms because no QEP strategies were practiced until the Fall 2007 cohort. The number who enrolled in developmental courses is included, as well as those who are continuously enrolled each term by the KCTCS Census Date. Students are tracked through six consecutive terms of enrollment. Those students who are not consecutively enrolled in the six terms tracked are not represented in this table, but may have re-enrolled during one or more of the six terms. Please note the number and percentage of students who never re-enrolled at HCTC after their first term of enrollment; they may have enrolled at another KCTCS institution, but that data has not been determined.
