

BUSINESS ADMINISTRATION SYSTEMS

BUSINESS ADMINISTRATION SYSTEMS

The Business Administration Systems Program prepares students for a variety of careers in business. A core curriculum provides students with a foundation of knowledge applicable to any business career. The Business Administration Systems Program offers an associate in applied science degree, diplomas and a variety of certificates. The curriculum is designed for those who seek entry level jobs as well as for currently employed individuals wishing to enhance their skills.

DIPLOMAS AND CERTIFICATES

The Small Business Management Diploma/Certificate curricula is designed to prepare students for the position of entrepreneur and business owner and offers the prospective business owner the fundamentals of starting and operating a business. The Basic and Advanced Business Administration Certificates are designed to be building blocks to complete the associate in applied science tools to new or current entrepreneurs. The General Business Certificate prepares the students for a variety positions in supervision, management and general business.

JOB OUTLOOK

Employment of administrative services managers is projected to grow 8 percent from 2014 to 2024, about as fast as the average for all occupations. Tasks such as managing facilities and being prepared for emergencies will remain important in a wide range of industries. Employment of sales managers is projected to grow 5 percent from 2014 to 2024, about as fast as the average for all occupations. Employment growth of these managers will depend primarily on growth or contraction in the industries that employ them. Employment of retail sales is projected to grow 7 percent from 2014 to 2024, about as fast as the average for all occupations. Many workers leave this occupation, which means there will be a large number of job openings.
